

the pile of junk

Alex Hornstein  
Hong Kong Incubator  
Project

“To invent, you need a good imagination and a pile of junk”

--Thomas Edison

“

you need a  
pile of junk”

'Innovation' is a dirty, stupid word

“Where do ideas come from?”

“Where do babies come from?”

Instructables

## 3 Simple Ways to Share What You Make

### photos

Share one or more pictures of a project, recipe or whatever you've made, quickly and easily.

### step by step

Share your Step-by-Step photos and text instructions of what you made so others can do it too!

### video

Share your how-to video. You'll need the embed code from you favorite video site like YouTube or Vimeo.

### Features

- SparkFun Microcontroller Contest
- Share Your Space Challenge
- Snow Contest 2**
- SodaStream Party Food Contest
- Monster Contest
- Build with Your...

## SHARE YOUR SPACE CHALLENGE

SHOW US WHERE YOU:

**craft...**

**build...**

**cook...**

**compute...**

**or anything else!**

# Lockpicking Master Class

By: Herb February 09th, 2011

2 retweet

Come join in on Sunday. The class will cover these systems and known bypasses/attacks to:

Medeco Lock Line

Assa Abloy Lock Line

Schalge Lock Line

Mul-T-Lock Lock Line

Magnetic Locks like Miwa and Evva MCS

Unique features across certain high security locks

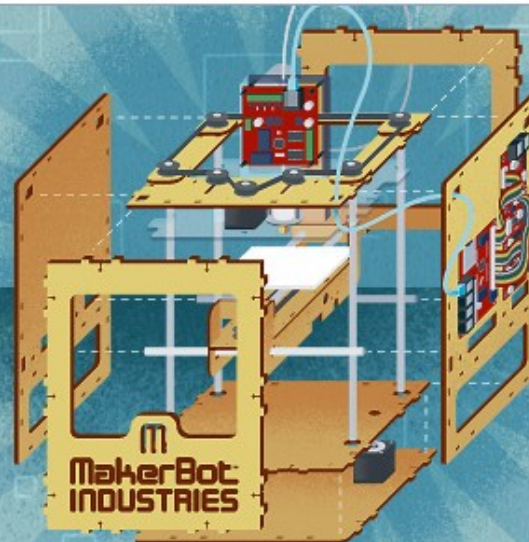

This class will be taught by Eric Michaud.

Makerbot

### START THE 3D PRINTER REVOLUTION FROM YOUR DESKTOP.

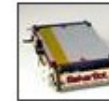

- MakerBot is an affordable, open source 3D printer. It makes almost anything up to 4"x4"x6".
- Build your own MakerBot and it makes things for you.
- MakerBots print with ABS plastic. It's your own little factory.

#### WHAT'S HOT AT MakerBot?

**Thing-O-Matic**  
The cutest rapid prototyping machine ever just went automatic.

**Automated Build Platform v1.0**  
It keeps going and going and going...

**Plastruder MK5**  
The state of the art in open source plastic extrusion.
